INTRODUCTION

Barcrest Group is part of International Game Technology (IGT). IGT is a world leader in the design, development and manufacture of microprocessor-based gaming products and software systems, with operations in over 100 countries worldwide.

Barcrest Games, with design centres at Ashton-under-Lyne and Holland has an established reputation for designing high quality, successful and popular amusement machines for UK and International markets.

REQUIREMENTS

Production at Barcrest was based on batch manufacture, building machines in batches and then testing in batches, the time between build and test was days rather than hours, improving was required. Following discussions with a number of material handling specialists Vanriet Rohaco Ltd was selected to provide a trail flow line.
