

# EQUIPMENT SPECIFICATION

## BALL TABLES

Application: Conveyance in any direction of items with a firm flat base.

Carrying surface for the balls:

Flat steel-plate, 3 or 4mm thick

Frames:

Press formed / fabricated to suit.

Table width:

Available to order

Ball diameter:

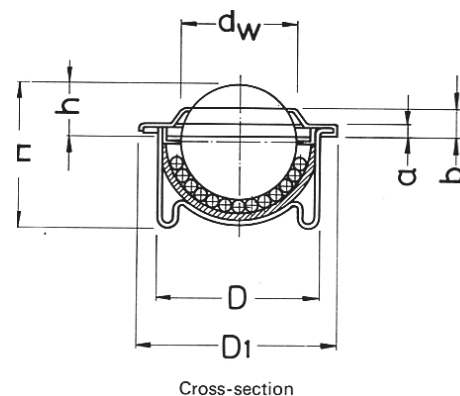

As specified in table below

Ball type:

Steel or synthetic

Design:

In the ball unit, the large ball is supported by several smaller balls resting in a semi-sphere made of steel. Due to this design, goods can be transported manual in any direction.

Type	dw	D	Size	D1	h	Size	H	a	b	Ball Capacity
KU15	15	24	0,042	31	9.5	0.2	21	2.8	6.3	20 kg
KU22	22	36	0,050	45	9.8	0.2	30.5	2.8	5.5	80 kg
